

AMERICAN MATHEMATICS COMPETITION PREP COURSE

*Prepare to ace the
American Mathematics
Competition*

The AMC prep course has been designed to train brilliant students for a variety of global mathematics competitions. It is useful for American Mathematics Competition and for children who want to apply for American Universities in the long run for higher education. The program is taught by olympians and researchers from leading universities of India and USA.

The preparation will help students to appear for World Mathematics Team Championship, Kangaroo Math Contest, American Region Math League and other Math competitions that take place around the globe.

Each Program has four modules

ALGEBRA, GEOMETRY, COMBINATORICS, NUMBER THEORY

KEY TAKEAWAYS

Fundamental concepts and problem solving related to AMC 8 and other math competitions

Mock Tests and graded homework for evaluation

Doubt Clearing support

Opportunity to additionally get mentored by Dr. Mark Saul (Ex-President of Mathematical Association of America) and Dr. James Tanton (Mathematician at Large-Mathematical Association of America)
